Letter of Invitation for Dr. Oleg Chen

Dear Dr Chen:

The Tumor Pathophysiology Group at OncoRay, the National Center for Radiation Research in Oncology, kindly invites you to continue research with us as invited scientist to perform the proposed project entitled **"Evaluation of the effect of arginine deprivation and irradiation on solid cancer cells"** as a part of our ongoing fruitful collaboration with the National Academy of Sciences in Lviv. Hereby, we would like to invite you for a period of six months (**01.10.2019 - 31.03.2020**) to stay in OncoRay. I herewith confirm that you will have access to our Institutional services, the training program and all the laboratory equipment required to carry out your challenging study. We will provide personal funding and support you at our best with consumables and labware so that you can successfully proceed with your project at our Institution. We look very much forward to hosting you here in Dresden.

Please do not hesitate to contact me any time if you need further assistance.

Kind regards,

**Prof. Dr.
Leoni Kunz-Schughart**,
